CREATE EXPERIENCES THAT GUESTS REMEMBER. MAKE YOUR EVENTS EPIC!

Since 2008, EPIC Outdoor Cinema has helped organizations transform ordinary spaces into unforgettable experiences. From resort movie nights and community festivals to school events, parks, military bases, and corporate gatherings, our portable cinema systems create moments that bring people together.

As the pioneer of portable, sealed-air, self-supporting cinema screen systems, EPIC has spent nearly two decades refining products that are as dependable as they are innovative. Our exclusive SlimLine™ technology delivers quiet operation, rapid setup, exceptional durability, and professional presentation—allowing you to focus less on equipment and more on creating extraordinary events.

More than a screen manufacturer, EPIC provides complete cinema solutions. Our integrated ShowCase™ Audio-Video Console systems include everything needed to host a successful event, from projection and sound to power distribution, cabling, storage, and transportation. Every system is engineered to work seamlessly together, making it easy to deliver professional-quality experiences with confidence.

Trusted by commercial, hospitality, education, government, military, and recreation organizations around the world, EPIC continues to lead the industry through innovation, reliability, and an unwavering commitment to customer success.

Because at EPIC, we don't just build cinema systems—we help you create experiences your audience will never forget.

SEALED AIR CINEMA SCREENS - ECO FRIENDLY!

Screen sizes from 9 feet to 40 feet wide

PRO SCREENS

DESCRIPTION & SPECIFICATION

EPIC PRO Projection Screens include an EPIC Slimline™ Sealed-Air Inflatable Frame with integrated back supports built-in for virtually hands free inflation, padded handles for easy placement, a Widescreen HD format with Dual-Vista™ projection, non-skid protection points on the base, a Quik-Zip™ machine washable quality screen surface, and an integrated lower skirt. Optional interchangeable screen surfaces include HD vinyl (Front or Rear), Mesh for high wind use, 3D.

- NFPA 701 compliant
- IFR certified
- 700 Denier triple-seamed reinforced PVC frame
- Non-skid reinforced ground contact points on frame's base
- Stable in up to 25 mph winds

STANDARD SCREEN SURFACE (Included):

This breakthrough heavyweight stretched seamless projection material is capable of front or rear projection, machine-washable, flame retardant, versatile, sturdy, and an excellent projection surface. **High Gain of 0.85* at 75° viewing angle.** Removable screen surface yields minimal stretching in wind and stays wrinkle-free.

COLOR: Glacier White

CLEANING, STORAGE & USE:

- Ensure laundering machinery is free of burrs or sharp objects that can cause snagging.
- Wash separately. Do not combine with other products (i.e. towels, sheets, drapery, etc.)
- Machine wash, cold
- Use non-chlorine bleach if needed. Best to test first. Oxy-clean is the best option.
- Do not use any fabric softeners
- Dry on LOW HEAT, or hang and stretch out to air dry. Direct fans at fabric to speed drying.
- Do not store screen surface damp or wet, always hang and stretch out to air dry or tumble on low heat.
- Warning: Remove screen surface if heavy rain/wind is approaching. Prolonged exposure to high wind on a heavy wet-soaked surface may cause irreversible stretching.

*Gain when using Front Projection.

MARINE-GRADE BLACK BORDER & SKIRT:

Marine-grade all weather oxford canvas material with repellant backing provides a smooth yet durable finish. The water-repellant fabric exhibits high tensile and tear strength. 1000-Denier Polyester. Certified flame resistant.

COLOR: Deep Black

CUSTOM LOGO OPTION: EPIC has an easy solution to your branding needs. Every PRO screen purchased directly through us or from our website: epicoutdoorcinema.com, receives a professional **FREE LOGO** printed in white placed directly in the center on the lower black skirt - only available when requested at time of purchase, prior to shipping. Allow 3 to 5 days for processing artwork.

Looking for more branding or banner display options? Design a full panel banner for sponsors or special event logos: Use your screen's frame - during the day - and have a custom zip-in 4-color printed banner made, which is put in place of the white projection surface. The zip-in banner we provide is a durable outdoor printed textile banner to allow you to use your frame as an EPIC Sign! Once printed, we custom cut the printed banner and sew zippers around the edges, in-house, for easy attachment to frame's black border.

OPTIONAL CUSTOM SCREEN SURFACES:

VINYL FRONT: Front Projection vinyl, matte white front side with a black backing on reverse, allows 100% of projector light to bounce back to the audience and eliminates lights behind the screen from penetrating through and excellent HD Resolutions. High Gain of 0.95 with an excellent 75° viewing angle.

VINYL REAR: Rear Projection gray vinyl, high contrast premium projection screen helps to eliminate ambient light, and excellent HD Resolutions. High Gain of 0.92 with a 55° viewing angle.

MESH: The bright white fabric has wind perforations for outdoor use, capable of Front or Rear Projection and machine washable. Perfect for high wind situations allowing some wind to pass through material while still preserving excellent image quality. Gain of 0.85 at center with a 75° viewing angle.

READY TO TRANSFORM YOUR VIEWING EXPERIENCE?

The most memorable events aren't defined by the venue
—they're defined by the people who gather around it.

For nearly two decades, EPIC Outdoor Cinema has helped attractions, parks, military, resorts, schools, festivals, and organizations around the world transform ordinary spaces into places where communities connect, audiences are captivated, and memories are made.

From your first event to your hundredth, our professional cinema systems are engineered to deliver exceptional performance, effortless operation, and the confidence to create experiences people will talk about long after the credits roll.

Where will your next experience begin?

LET'S MAKE IT EPIC!
