

E-SL9 PRO SCREEN-ONLY KIT [PRO Screen Kit - Does not include Audio, Console, or Projector]:

- A. One(1)- **EPIC E-SL 9 PRO Inflatable frame** - (10'-6" X 9'-6" x 4') Constructed of 25 oz. 700 denier heavy duty, tear resistant vinyl coated polyester. NFPA 701, IFR materials, rated for safe operation in up to 25 mph winds. All seams hot air welded & reinforced at pressure points. Back support legs on frame for hands-free inflation, & handles for easy positioning before tethering. Pressure release valve automatically controls pressure in frame to guard against inadvertent over inflating. Proprietary frame fabrication methods eliminate sag at top of viewing surface.
- Includes all nylon tethers & D-Ring Tie down points, (4) steel ground stakes & mallet.
 - OV10 pump & hose w/1" adapter for inflation/deflation
 - Durable deep black border / skirt made with 1000 denier marine canvas
 - Includes Heavy-duty ground tarp for providing a clean and protective surface over any surface conditions
 - Includes Heavy-duty screen transport bag with reinforced pocket to safely store surface
 - Comprehensive instruction manual, repair kit, & ongoing technical support
 - 3-year Warranty on EPIC Screen & 1-year Warranty on Air Pump
- B. One (1)- **EPIC PRO Screen Surface** - Dual-Vista™ theatrical quality screen surface: 9' wide x 5' tall viewing surface:
- 10'-3" diagonal, widescreen HD format, Quick- Zip™ removable screen surface
 - Dual projection (front & rear) - wrinkle-free, machine washable with reinforced zippers
