

E-SLP 20 PREMIER SCREEN-ONLY KIT [PREMIER Screen Kit - Does not include Audio, Console, or Projector]:

- A. One(1)- **EPIC E-SLP 20 PREMIER Inflatable frame** - (22'-8" x 17'-5" x 7'-4") Constructed of 28 oz. 1000 denier heavy duty, tear resistant vinyl coated polyester. NFPA 701, IFR materials, rated for safe operation in up to 25 mph winds. All seams hot air welded & reinforced at pressure points. Back support legs on frame for hands-free inflation, & handles for easy positioning before tethering. Pressure release valve automatically controls pressure in frame to guard against inadvertent over inflating. Proprietary frame fabrication methods eliminate sag at top of viewing surface. Two additional support tubes are built-in for stronger wind resistance & refined appearance. Extra-rigid tubular sealed-air frame with 2" larger diameter tubes vs. PRO. Extra added tubing on frame structure (vs PRO) makes it 100% buoyant - easily floats on water!
- Includes all nylon tethers & extra added D-Ring Tie down points, (6) steel ground stakes & mallet
 - Larger B2000 pump & hose w/2" adapter for fastest inflation/deflation. Also includes (1) OV10 -backup air pump
 - Highest quality border / skirt made with premium Neoprene material "like a wetsuit"
 - Includes Heavy-duty screen transport bag with reinforced pocket to safely store surface
 - Includes comprehensive instruction manual, repair kit, & ongoing technical support
 - 3-year Warranty on EPIC Screen & 1-year Warranty on Air Pumps
- B. One (1)- **EPIC PREMIER Screen Surface** - Dual-Vista™ theatrical quality screen surface: 20' wide x 11'-3" tall viewing surface:
- 23' diagonal, widescreen HD format, Quick-Zip™ removable screen surface
 - Dual projection (front & rear) - most heavy-duty, wrinkle-free, machine washable with reinforced zippers
